

# TRENDS-in-MEDICINE

**NOTE:** Yellow highlights indicate a change since our last calendar published in August 2021, and, as you will see, there have been a lot of changes in the last 2 months. Yet, beware that there may still be last-minute changes. You also should be cautious with hybrid meetings. Sometimes the virtual part of a hybrid meeting does not include everything in the live meeting, and there can be major things missing from the virtual meeting. So, before you decide you can skip going to a hybrid meeting, be very sure that what you want actually will be in the virtual format – don't assume.
